EXPERIENCE

The Tech Academy, Austin TX (REMOTE) - Curriculum Specialist
Dec 2019 to Present

Responsible for the integrity of the school's curriculum content, I verify content as accurate and usable. Created content for the course such as definitions, coding concept articles, exams, quizzes, code examples, and code tutorials in written and video form.

Over the years that I have spent with Tech Academy, I have put in hours of work on editing and updating the course content to ensure the technology students use is up to date, user friendly, and easy to understand concepts.

The Tech Academy, Austin TX - Coding Course Instructor
May 2019 to Present

Skills used: HTML, CSS, JavaScript, JQuery, Python, SQL, and UI/UX.

Worked directly with students to ensure they fully understood their course material by way of screen shares and one on one guidance. The course program is self-paced so I would respond to any questions or code issues that came in via email or phone as fast and efficiently as possible. Students also participated in a two week live project at the end of their boot camp. I would act as their project manager and assign tasks and keep them accountable by making sure the students completed a specific number of tasks and attended daily stand ups.

Instructed a four month training program for the Airforce where the students learned how computers work, Version Control, HTML5, CSS3, JavaScript, SQL, R and Python for Data Science, Swift for iOS Development, and UI/UX. Managed Data Science and iOS App development to be utilized for the Airforce.

Salesforce Instructor for CarMax Home Office. The basics of a Salesforce administrator and developer coding in the Apex language and using Azure DevOps to manage projects.

Eden Ads, Clearwater FL (REMOTE) - Director of Web Development
Nov 2021 to Feb 2022

Bootstrap 4 & 5 | FTP | FileZilla | Adobe Premier Pro | Adobe Audition

PROJECT MANAGEMENT

SCRUM | Agile | Azure DevOps

VERSION CONTROL

GIT | GIT Bash | Azure DevOps

EDUCATION

Software Developer Bootcamp
March 2015 - April 2016
The Tech Academy Portland
(Online remote student)

I have been self-teaching myself code since I was 12 years old. I took a boot camp to gain more formal education on coding topics and see where I could be lacking in knowledge. As technology advances so do the languages and I strive to keep myself well educated with modern technology and language updates.

Skills used: HTML, CSS, JavaScript, and WordPress

Designed, built, and maintained websites and landing pages in WordPress and other platforms such as Shopify.

I was responsible for our client's websites from initial client onboarding discovery of their needs in a website, to design, then to development.

Created effective designs for client websites and landing pages, responsible for communication with clients in the website development process and ensuring client needs and expectations were met.

Freelance Web Developer/Designer

May 2015 to 2019

Skills used: HTML, CSS, SCSS, JavaScript, and WordPress providing clients the structure and design they needed for their business.

Clients Such as UnevenOctopus Apparel, Spring Branch Dental, and Drinking in SA.

Rugs & Art Tent Sales LLC, Austin, TX -Sales Manager

August 2012 to September 2015

Managed sales and customer service at multiple locations.

Trained, supervised, and evaluated sales and support staff.

Maintained sales reports and inventory ordering.

Visual Edge Design - Clearwater, FL - Web Developer Intern

September 2011 to December 2011

Skills used: HTML, CSS, Adobe CS5, Filezilla FTP.

Made changes and updates to clients' websites per their requests.

Created graphics and changes on websites.

Tested websites for bugs and typos, quality-checked the layout for desktop sizes, tablet, and mobile.
